

BUTLER COUNTY

**family +
children**

FIRST COUNCIL

Cross Systems Training Committee

Do you want to keep current with the latest information regarding the organizations that help families and children in Butler County? You are invited to our monthly cross systems training committee meetings. Each month we spotlight local programs to learn new information and share community resources. We discuss ongoing committee projects, network and share agency updates. Examples of committee projects include the annual resource expo, social services overview training for new employees and the resource rack cards.
